Diversification*: Integral to Your Success

Outside influences such as economic shifts, movement in interest rates and political events can have a big impact on the market. Being fully diversified can help to minimize the impact on your portfolio if one asset class underperforms.

PNC Managed Investments Inc., is a federally registered investment adviser, and a wholly owned subsidiary of PNC Global Investment Servicing, Inc. PNC Managed Investments Inc. offers investment advisory support, services and/or management programs to various firms and their customers. For more information concerning PNC Managed Investments Inc. and its programs and services, please refer to PNC Managed Investments Inc.'s ADV Part II, which may be obtained by calling (877) 441-4785 or writing to 760 Moore Road, King of Prussia, PA 19406.

**While diversification through an asset allocation strategy is a useful technique that can help to manage overall portfolio risk and volatility, there is no certainty or assurance that a diversified portfolio will enhance overall portfolio return or outperform a portfolio that is not diversified. Diversification cannot eliminate the risk of investment losses, and past performance is not a guarantee of future results.*

Manager Select Premier is a flexible unified managed account (UMA) sponsored by PNC Managed Investments Inc. It's a sophisticated investment solution for clients looking to diversify their investment portfolio among equities (using equity-based securities model portfolios), mutual funds and Exchange Traded Funds (ETFs), along with a robust asset allocation methodology that suits each client's specific investment goals and needs. The best part? All these features are provided with the simplicity of one account. That means one Form 1099, one account statement, one quarterly report and one annual fee, regardless of the number of investment vehicles used. But this simplicity doesn't equate with simplistic investing.

Manager Select Premier offers:

- Access to premier institutional money managers and their models generally reserved for investors at higher minimums
- Multiple investment types and vehicles available in one account
- Access to nontraditional investment styles for increased diversity
- Ability to place reasonable investment restrictions on the management of the account
- Investment due diligence performed by PNC Managed Investments Inc.
- Complete risk spectrum coverage
- Efficient tax management

Please note: Additional information about the WMS platform is included in our overview brochure; this piece is intended to be used with that brochure to highlight one product, Manager Select Premier.

Prospective investors should review an investment vehicle's prospectus, statement of additional information, annual report, product description and/or other available information for fees, expenses, risks and/or other important disclosures prior to making any investment decisions. Please review the Wealth Management Services Disclosure booklet for, among other documents, both PNC Managed Investments Inc.'s and MetLife Securities, Inc.'s (MSI) Schedule H Disclosure Brochure as well as the investment management agreement ("Agreement") for additional information about the Manager Select Premier Program ("Program"). Client's participation in the Program is subject to acceptance by MSI and PNC Managed Investments Inc., and the management of the client's Program account is governed by the terms and conditions of the Agreement.
